Plant and Soil **137**: 303–305, 1991.

Contents of Volume 137 1991

Volume 137, No. 1

A. Quispel, A critical evaluation of the prospects for nitrogen fixation with non-legumes 1
M. Villbrandt, W. E. Krumbein and L. J. Stal, Diurnal and seasonal variations of nitrogen fixation and photosynthesis in cyanobacterial mats 13
G. A. Peschek, K. Villgrater and M. Wastyn, "Respiratory protection" of the nitrogenase in dinitrogen-fixing cyanobacteria 17
G. A. Peters, Azolla and other plant-cyanobacteria symbioses: Aspects of form and function 25
J. Schwencke, Rapid, exponential growth and increased biomass yield of some *Frankia* strains in buffered and stirred mineral medium (BAP) with phosphatidyl choline 37
Y. T. Tchan, A. M. M. Zeman and I. R. Kennedy, Nitrogen fixation in *para*-nodules of wheat roots by introduced free-living diazotrophs 43
A. D. L. Akkermans, D. Hahn and M. S. Mirza, Molecular ecology of *Frankia*: Advantages and disadvantages of the use of DNA probes 49
R. Rai, Strain-specific salt tolerance and chemotaxis of *Azospirillum brasilense* and their associative N-fixation with finger millet in saline calcareous soil 55
J. P. Pimentel, F. Olivares, R. M. Pitard, S. Urquiaga, F. Akiba and J. Döbereiner, Dinitrogen fixation and infection of grass leaves by *Pseudomonas rubrisubalbicans* and *Herbaspirillum seropedicae* 61
K. A. Malik, R. Bilal, G. Rasul, K. Mahmood and M. I. Sajjad, Associative N_2-fixation in plants growing in saline sodic soils and its relative quantification based on ^{15}N natural abundance 67
K. M. Khammas and P. Kaiser, Characterization of a pectinolytic activity in *Azospirillum irakense* 75
C. B. You, W. Song, H. X. Wang, J. P. Li, M. Lin and W. L. Hai, Association of *Alcaligenes faecalis* with wetland rice 81
J. Fages and J. F Arcas, Sunflower inoculation with Azospirillum an other plant growth promoting rhizobacteria 87
H. Levanony and Y. Bashan, Active attachment of *Azospirillum brasilense* to root surface of non-cereal plants and to sand particles 91
Y. Bashan and H. Levanony, Alterations in membrane potential and in proton efflux in plant roots induced by *Azospirillum brasilense* 99
A. Hartmann, S. R. Prabhu and E. A. Galinski, Osmotolerance of diazotrophic rhizosphere bacteria 105
R. M. Boddey, S. Urquiaga, V. Reis and J. Döbereiner, Biological nitrogen fixation associated with sugar cane 111
J. Boonjawat, P. Chaisiri, J. Limpananont, S. Soontaros, P. Pongsawasdi, S. Chaopongpang, S. Pornpattkul, B. Wongwaitayakul and L. Sangduan, Biology of nitrogen-fixing rhizobacteria 119
R. H. Burris, A. Hartmann, Y. Zhang and H. Fu, Control of nitrogenase in *Azospirillum* sp. 127
J. Oelze, Diazotrophic mixed culture of *Azotobacter vinelandii* and *Rhodobacter capsulatus* 135
M. C. Margheri, M. R. Tredici, G. Allotta and L. Vagnoli, Heterotrophic metabolism and regulation of uptake hydrogenase activity in symbiotic cyanobacteria 139
T. de Waha Baillonville, H. F. Diara, I. Watanabe, P. Berthet and C. van Hove, Assessment and attempt to explain the high performance of Azolla in subdesertic tropics versus humid tropics 145
C. Forni, E. Tel-Or, E. Bar and M. G. Caiola, Effects of antibiotic treatments on *Azolla-Anabaena* and *Arthrobacter* 151
F. Carrapiço, Are bacteria the third partner of the *Azolla-Anabaena* symbiosis? 157

M. Šimek, V. Pižl and J. Chalupský, The effect of some terrestrial oligochaeta on nitrogenase activity in the soil 161
W. J. Zimmerman, I. Watanabe and T. A. Lumpkin, The *Anabaena-Azolla* symbiosis: Diversity and relatedness of neotropical host taxa 167
M. del Gallo and P. Fabbri, Effect of soil organic matter on chickpea inoculated with *Azospirillum brasilense* and *Rhizobium leguminosarum* bv. *ciceri* 171
S. Boussiba, Nitrogen fixing cyanobacteria potential uses 177

Volume 137, No. 2

W. E. Grey, Influence of temperature on colonization of spring barleys by vesicular arbuscular mycorrhizal fungi 181
H. F. Mayland, J. L. Wright and R. E. Sojka, Silicon accumulation and water uptake by wheat 191
A. Nerd, A. Karadi and Y. Mizrahi, Salt tolerance of prickly pear cactus (*Opuntia ficus-indica*) 201
R. M. Callaway and N. M. Nadkarni, Seasonal patterns of nutrient deposition in a *Quercus douglasii* woodland in central California 209
D. Singh, R. K. Kohli and D. B. Saxena, Effect of eucalyptus oil on germination and growth of *Phaseolus aureus* Roxb. 223
B. Marschner and A. W. Wilczynski, The effect of liming on quantity and chemical composition of soil organic matter in a pine forest in Berlin, Germany 229
E. Strzelczyk, H. Dahm and R. Pachlewski, B-group vitamins production by mycorrhizal fungi in response to pH (in vitro studies) 237
E. A. Auxtero and J. Shamshuddin, Growth of oil palm (*Elaeis guineensis*) seedlings on acid sulfate soils as affected by water regime and aluminium 243
H. Kuhlmann and G. Baumgärtel, Potential importance of the subsoil for the P and Mg nutrition of wheat 259
W. R. Eason, E. I. Newman and P. N. Chuba, Specificity of interplant cycling of phosphorus: The role of mycorrhizas 267
J. P. Haggar, G. P. Warren, J. W. Beer and D. Kass, Phosphorus availability under alley cropping and mulched and unmulched sole cropping systems in Costa Rica 275
M. Faure-Raynaud, C. Daniere, A. Moiroud and A. Capellano, Intraspecific variability of isozymes in *Penicillium nodositatum* Valla, a fungus inducing "myconodules" on the root-system of *Alnus* sp. 285

Short communication

E. Fabiano and A. Arias, Competition between a native isolate of *Rhizobium leguminosarum* bv *trifolii* and two commercial inoculant strains for nodulation of clover 293

Erratum: M. G. Whitten and G. S. P. Ritchie, A comparison of soil tests to predict the growth and nodulation of subterranean clover in aluminium-toxic topsoils, *Plant and Soil* 136.1 (1991): 11–24. 297
